Two days workshop on **Sustainable Energy Systems for Climate Change Mitigation**

ABOUT UNIVERSITY TEACHING DEPARTMENT

The University Teaching Department (UTD) at CSVTU, Bhilai, was established in 2016. Currently, Diploma, PG Diploma, B.Tech (honours) and 6 PG courses are offered at UTD, namely M.Tech in Energy & Environmental Engineering, Biomedical Engineering & Bioinformatics, Microelectronics & VLSI, Structural Engineering, Environmental & Water Resources Engineering, and M.Plan in Urban Planning. UTD aims to be a national leader in imparting quality education, conducting research, and advancing technology development. UTD provides an exceptional research environment and offers academic programs leading to the award of M.Tech and M.Plan. Degrees.

ABOUT DEPARTMENT OF ENERGY AND ENVIRONMENTAL ENGG.

Department of Energy and Environmental Engineering has been established at the University Teaching Department, CSVTU, Bhilai since June 2016. The Department has an intake of 18 M.Tech students per year. The Department offers PG Programme (M.Tech.) in Energy and Environmental Engineering. The department believes in imparting quality education to the students, interaction with eminent personalities and academicians from prestigious Institutions/industries. The vision of the department is "To develop successful academic research community in the area of sustainable and green technology for a better tomorrow".

ABOUT THE WORKSHOP

The workshop on Sustainable Energy Systems for Climate Change Mitigation is a comprehensive program designed to address the urgent need for sustainable energy solutions in the face of global climate change. This workshop will cover innovative technologies and practices aimed at reducing carbon footprints and enhancing energy efficiency. Participants will gain insights from leading experts in the field, and explore practical strategies for implementing sustainable energy systems in various sectors. The goal is to equip attendees with the knowledge and skills necessary to contribute to climate change mitigation through sustainable energy practices.

OBJECTIVES

- Provide in-depth knowledge about cutting-edge sustainable energy technologies and their role in mitigating climate change.
- Equip participants with the skills and tools necessary to implement sustainable energy solutions in real-world scenarios, emphasizing practical applications and hands-on experience.
- Encourage collaboration among participants, industry experts, and researchers to foster innovation and the development of new sustainable energy strategies.
- Increase awareness about the critical impacts of climate change and the importance of sustainable energy systems in reducing greenhouse gas emissions and achieving global climate goals.

REGISTRATION

- There is no registration fee.
- Participants should fill the google form by **3rd August 2024**.
- Total Seats for Participants: 60 Seats

IMPORTANT DATES

Registration closes	- 03 rd Aug. 2024
Participation confirmation	- 04 th Aug. 2024
Workshop date	- 05 th & 06 th Aug., 2024
